

Future Directions

- **Servers: Integrate Gopher, Web, and WAIS Capabilities**
- **Protocols: Working on Standards Committees and Protocol Toolkits**
- **Online Services: Service Bureau of Publishers**

What I really want...

- My personal information to be accessible
- Published information should find me
- Usable anywhere
- Others can use what I have learned (if I want them to)

Electronic Information Delivery

Wide Area Information Server Architecture

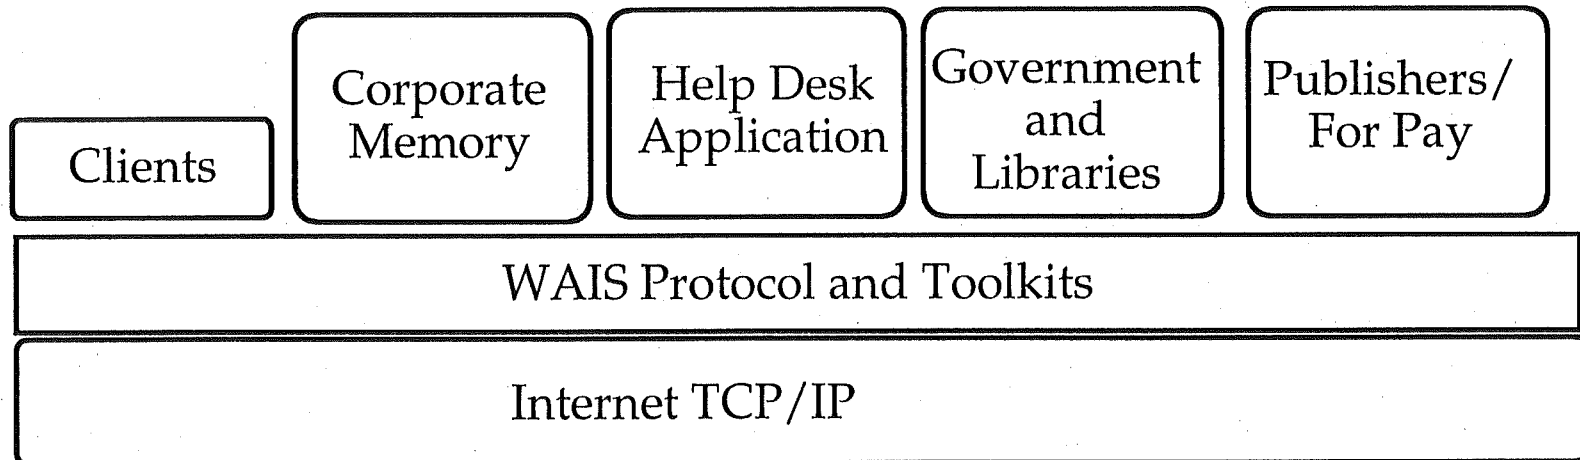

Easy point-and-click interface to worldwide information

WAIS Inc: Network Publishing

- **Founded June 1992 from 1990 Consortium of Apple/
Thinking Machines/DowJones/KPMG**
- **Technology: 2 Founders from Supercomputing**
- **Internet: Experience in Building an Internet System**
- **Publishing: 2 Founder from Publishing**

WAIS Inc Position

- WAIS Inc Brings
 - Application Protocols
 - Database Server Technology
 - Wide Area Network Expertise
- Work with Industry Partners

WAIS Inc Server

- **Mixed Natural Language and Boolean**
- **Accounting for Billing**
- **Restricted Access**
- **Data in original formats**
- **Popular Unix Platforms**

WAIS Navigation

- **Optimized for Wide Area Networks**
- **Natural Language with Relevance Feedback**
- **Personal/Enterprise/Wide Area Information**
- **Interactive Search → Agents**

WAIS Inc.

"Chaining" of Questions to Follow a Tangen

Question-1

Look for documents about
recent developments in personal computers

Run

Which are similar to in these sources
Technology: Computers Wall St. Journal

Results

- *** International: Bull Agrees to Pay Zenith \$15 Million to End
- *** AT&T Set to Announce Memorex Computer Accord
- *** Technology Brief -- International Business Machines: Price
- *** Business Brief -- Data General Corp.: Four Models Are Un
- *** Technology: Computer Firms See the Writing on the Soree
- *** Retailing: Businessland Enters Japan, Aided by 4 Big Loca
- *** Col
- *** Lo

Question-2

Look for documents about

Run

Which are similar to in these sources
Retailing: Businessland Wall St. Journal

Results

- *** Retailing: Businessland Enters Japan, Aided by 4 Big Loca
- ** What's News -- Business and Finance
- ** Technology: Computer Makers Agree on a Standard For Ne
- * Inside Track: Businessland Directors Take a Loss And Tra
- * Technology & Health: Businessland To Report Loss For 3r
- * Technology: U.S. Computer Maker Takes on NEC on Its Ow
- * Technology: Computer Firms See the Writing on the Soree

Digital Libraries and Network Publishing

Large Networks + Too Much Information = A Problem

WAIS Can Help Users Find Critical Information

WAIS Can Help “publishers” Deliver Information to Users

Perot Systems WAIS System

- **Corporate Information**
 - Resumes, Company Policies, Presentations, Contracts, Proposals, Phone book
- **Published Info**
 - CDROM's, Internet resources

Upcoming Searching Extensions

- Integration of TREC/Tipster Research
- Other commercial search engines
- Learning based searches
- Integrated Searching and Browsing (gopher-style)
- International character sets and Unicode
- New protocols (Z39.50-v2, URL, RSA, Search Syntax)

The WAIS Protocol *is* WAIS

- Supports any search syntax
- Supports sophisticated clients -- puts intelligence in the user's hands
- Clients can run on any platform
- Multiple servers in a single search
- Retrieve any kind of data: text, graphics, video,...

How Standard Protocol can Provide Security

- Users do not login to server, but search only through application layer protocol (Z39.50).
- Server controls access to data.
- Authentication and Encryption
 - Public Key Encryption
 - Kerberos (WAIS Integration by MCC)
- Enables privacy, billing, and authentication

Networked Back of the Book Index: Searching

- When you know what you are looking for
- Manual indexing ———> full indexing
- Advanced navigation: topic clustering, query analysis, relevance feedback
- Interactive through gigabytes

Navigation Techniques: Paper

- Alphabetical Listings (dictionary, Encyclopedia)
- Indices (back of the book and Readers Guide)
- Table of Contents (outlining)
- Citation index
- "Tree of Knowledge"
- Have you read any good books lately?

Navigation Techniques: Computers

- Hierarchical:
 - File Folders, FTP, Internet Gopher
- Filename search:
 - Unix "find", Mac "find file", Internet Veronica
- String search:
 - Grep, ON Location
- Boolean query systems (AND OR NOT):
 - Dialog, Mead Data
- Static Hypertext links (see also pointers):
 - World Wide Web

Navigation Techniques: WAIS

- Natural language questions and relevance feedback as well as Boolean
 - Question-answer dialog
 - Similar to Newspapers: "More on page 5"
 - Dynamic Hypertext Links
- 2 level search:
 - Directory of servers
 - Servers themselves
